

## Ko Tātou This Is Us – Facebook cover

Thanks for downloading the official *Ko Tātou This Is Us* Facebook cover image templates. These, along with all available templates, have been designed for you to leverage and make your own. If you are undertaking biosecurity-related programmes, activities or events, or showing your commitment to biosecurity, we'd love for you to upload this cover image to your Facebook page.

You can personalise this Facebook cover by adding your own logo – we have designed this brand to compliment other brands.

### What will you find in the zip folder?

- Adobe InDesign templates – Idml & Indd
- Images from within the artwork
- Logos – eps files
- Exported Jpegs (image file)
- Exported PDF
- Instruction .txt (detailed design and print specifications)

### What size is the image?

The image is 820 pixels x 461 pixels – this size is the best size for Facebook cover images for both desktop and mobile platforms and ensures that the *Ko Tātou This Is Us* logo is visible at all times.

### What software will you need?

- You will need InDesign to open and edit the Idml & Indd.
- For the PDFs, Jpegs & eps files, you should be able to open these in a standard preview mode or whichever software your computer has to open standard image or PDF files.

### What if you don't have InDesign?

The templates have been set up within Adobe InDesign version 13.1, so in order to edit these, you will need this design software. If you're unsure how to use InDesign, we suggest that you speak to someone in your design team, or someone who has this software – as they should be able to help you.

Alternatively, if you are just looking to add your brand to the Facebook cover image, you can simply add your own logo to the jpeg (image file). You'll need to open the image in a standard image software on your computer, like Paint, and add your own brand image by pasting it into place.

### How do I upload it to your Facebook page?

To change or add a Facebook cover image, see Facebook's help desk for more information:

[https://www.facebook.com/help/220070894714080?helpref=faq\\_content](https://www.facebook.com/help/220070894714080?helpref=faq_content)

### Are there any restrictions around the usage?

Please refer to our full [terms of use](#). We're more than happy for you to use the supplied imagery and templates, we just ask that you always use the official *Ko Tātou This Is Us* logo and that you only use these in a biosecurity-related context.
